CORPORATE OVERVIEW

BGI is a minority owned, Small Business Administration (SBA) providing Operations and Maintenance support services for government, military, public and private clients. Since 1982, **BGI** has built a solid reputation of reliability and performance, by continually driving to exceed.

BGI is a diverse team of engineers, environmental scientists, administrative professionals, and technicians from a wide variety of backgrounds. **BGI's** in-house talent gives them a unique advantage with unparalleled insight to all components of their clients needs.

BGI, from its small beginnings of managing hazardous waste, has expanded to a multifaceted management company dealing with an endless array of high profile projects.

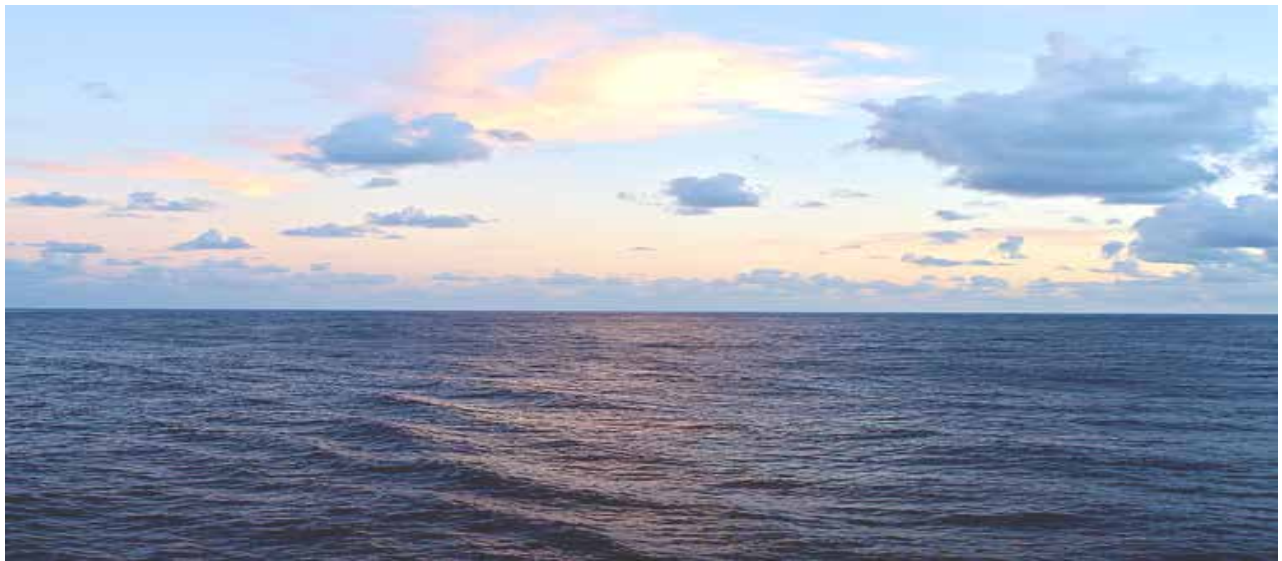

At the same time, **BGI** understands that no one company can have all the expertise necessary to handle every situation. Our customers have come to rely on **BGI** for “**Getting The Job Done,**” so we have created relationships with other specialized companies in order to handle our customers needs, no matter how specialized or unique.

CORPORATE VISION

Our Mission is...

To provide our clients with unparalleled service, as we enter our fourth decade, we remain committed to:

- Applying a client-centered approach to business
- Emphasizing “Win Win” relationships with our clients
- Continually looking for new and innovative ways to improve service and lower costs
- Maintaining the most efficient response times for our clients’ needs
- Respecting the contribution and value of our co-workers
- Maintaining our position of safety and soundness

Our Values are...

- We win only as a team
- We are all innovators
- We do what we say and strive to achieve
- We are driven with a passion to win
- We value open communication for diverse insight
- We recognize speed and agility as a competitive necessity
- We work competitively with sensitivity to life priorities

Core Belief....

- Our people are the company's most important asset, and sharing these common values facilitates our competitive advantage

- Hazardous/Non-Hazardous Waste Transportation and Disposal Services
- Oil-Water Separator Management
 - Confined Space Entry
 - Tank Farm Management
 - Consulting
- Certified Product Destruction
 - Site Remediation
- 24-Hour Emergency Response

Training Outreach

Hazardous Materials / Dangerous Goods Classification

Shipping a hazardous material or dangerous good that is not properly classified, marked, labeled, and documented can result in stiff fines. Our environmental consultants can help with regulations for the transport of hazardous materials will help you not only determine which products you ship are (and are not) subject to the regulations, but also how to comply with the regulations.

Permits

Your permits contain specific and general conditions, references to the DOT, EPA or OSHA regulations, and adoption of commitments made in your business or facilities permit application. BGI environmental consultants ensure that you are in compliance with all regulatory and permit conditions.

Scaffold building training at BGI Headquarters.

Training Outreach

Audits

BGI's safety and environmental consultants will provide you with an audit report that will identify areas of potential non-compliance that you can address before an EPA, OSHA, or DOT inspection.

Facility Response Team Training (RFT) at Point Hueneme with Port Operations Personnel

Plans and Procedures

EPA, OSHA, and DOT require a vast number of written plans and procedures. BGI can evaluate your facility to determine which are applicable to your operations, and then develops the required plans and procedures for you.
